

SALES ENABLEMENT · THE FULL FAMILY SERIES

The range we sell.

Seven robots. Five verticals. One operating system. Everything a customer can buy from us today — and exactly what to say about each one.

WHY CUSTOMERS BUY FROM US

Many robots. One ecosystem.

Mangobot engineers the machines.
Engage powers every one of them with **AtlasOS**
— our Enterprise AI Operating System.

01 • ORCHESTRATE

One console, seven robots

Task assignment, routing, and fleet coordination
— humanoids and quadrupeds under a single
operator view.

02 • PLAYBOOKS

Industry presets, day one

AtlasOS ships with Engage playbooks for all five
verticals — production lines to Engage Wash
service routines.

03 • CARE

Always current, always watched

Monitoring, over-the-air updates, and fleet
analytics keep every robot earning — and every
customer renewing.

THE FLEET · IN ORDER

Seven robots, ready to quote.

A3.

Born for the stage.

Next-generation humanoid blending elite athletic mobility with interactive AI — built for entertainment, commercial services, and advanced research. The flagship of the family, and the first robot your customer's guests will remember.

DEPLOYS • CUSTOMER EXPERIENCE • EVENTS • BRAND ACTIVATIONS

Lead with the ten-hour runtime

A full show day on one battery — no other full-size humanoid in the lineup comes close.

51 DOF is the athleticism number

Sprints at 5 m/s, moves like a performer, holds a crowd without a handler hovering.

Position it as the headliner

When the brief says “wow the room,” this is the unit you quote first.

A2 Ultra.

The face of the floor.

Mangobot's flagship event humanoid. It speaks 20+ languages, navigates autonomously with 360° perception, and delivers ultra-realistic speech and movement — reception, guided tours, and brand moments handled with composure a human shift can't sustain.

CHECK-IN

Lead with the languages

Twenty-plus languages, tailored personas, custom knowledge bases — every guest greeted in their own tongue.

It works the room on its own

360° perception and autonomous navigation — no joystick, no minder, no script.

The proven earner

This is the unit behind the partner program's headline economics — the safest first purchase.

X2 Ultra.

Small enough to charm, precise enough to headline.

At 130 centimeters, the X2 Ultra is compact but explosive — it jumps, runs, dances, and syncs across fleets for choreographed performances built to travel far beyond the room.

Sell the sync

Multiple units perform as one choreographed fleet — the moment every phone in the room comes out.

The content machine

Every routine becomes shareable footage — organic reach no paid campaign replicates.

Pairs with the A2 Ultra

Ambassador at the door, Vibe Master on the floor — the two-unit event package that hits break-even fastest.

D1 Ultra.

Goes where people skip.

A 15-kilogram explorer that moves at 3.7 m/s, climbs stairs, and adapts to complex terrain using reinforcement learning. Built for patrol routes, inspection rounds, and multi-scenario operations — with a live feed back to base.

SECURITY

Stairs are the demo

It climbs what wheeled robots can't, and it learns the route as it goes.

The overnight employee

Patrols, inspects, and streams back to base while the building is empty.

The entry point to quadrupeds

Lightest and most affordable of the D1 family — the natural first robot for facility teams.

D1 Max.

Legs when it's rough. Wheels when it's not.

Near 1:1 load-to-weight performance — 25 kilograms carried at 4+ m/s on legs, 8+ m/s on wheels. IP67-sealed for docks, yards, and the routes that don't forgive.

DEPLOYS • INVENTORY • FACILITY MAINTENANCE • SITE TRANSPORT

Near 1:1 load-to-weight

A 30 kg robot that carries 25 kg — say that sentence and let it land.

Two terrains, one robot

Wheels for the warehouse floor, legs for the loading dock steps — no route re-engineering.

IP67 means outdoors, all year

Rain, dust, and washdowns are in spec, not exceptions.

D1 Max Pro.

The heaviest jobs, without a complaint.

Fifty kilograms carried continuously, one hundred at maximum — industrial-grade haulage with a 5.5-hour unloaded runtime that operates in rain, dust, heat, and cold. Mission-critical by design.

WEIGHT

64 kg

One hundred kilograms

The max-load number opens every industrial conversation — then 50 kg continuous closes it.

A half-shift on one charge

5.5 hours unloaded from a 2160 Wh pack — schedule it like a crew member.

All-weather, all-site

IP67 plus rated heat and cold operation — quote it for the yards nobody else's robot survives.

G2.

A production line's new hire.

An industrial-grade humanoid for scalable real-world deployment: 7-DOF force-controlled arms, 360° perception, and embodied AI delivering precise, safe, continuous performance across manufacturing, logistics, and commercial environments.

HEIGHT

**122.5–179.5

DEPLOYS · MANUFACTURING · INVENTORY · ENGAGE WASH INTERIORS

Force-controlled arms are the differentiator

7-DOF arms that feel what they touch — precision tasks, safely, next to people.

It adjusts to the workstation

Height-adjustable from 122.5 to 179.5 cm — the line doesn't change, the robot does.

Built for fleets, not pilots

Designed for scalable deployment — quote per-station, then scale across the line.

Listen for the need. Quote the unit.

"WE WANT A CROWD"

A3 / X2 Ultra

Stage presence and synchronized routines. Events, launches, activations.

"WE NEED EYES ON SITE"

D1 Ultra

Patrol, inspection, overnight rounds — stairs and rough terrain included.

"WE RUN A LINE"

G2

Force-controlled arms at the workstation. Manufacturing & logistics.

"WE NEED A HOST"

A2 Ultra

Reception, tours, 20+ languages, all-shift composure. Hospitality & retail.

"WE MOVE HEAVY THINGS"

D1 Max / D1 Max Pro

25 kg hybrid transport — or 100 kg industrial haulage, all-weather.

EVERY ANSWER ENDS WITH

+ AtlasOS

One console, playbooks, monitoring, OTA care — on every unit sold.

Their partner program. Our deal on top of it.

Mangobot's Global Partner Program turns venues into destinations — and Engage sits inside it as the AI operating layer.

Behind the program: AgiBot — the world's #1 humanoid maker by shipments — as strategic hardware partner, and iFLYTEK powering 20+ language voice and Spark LLM intelligence. Figures above are Mangobot's published partner-program numbers.

THE ENGAGE × MANGOBOT DEAL

Our specific terms, territories, and margins

TO BE DETAILED · NEXT REVISION
OWNER · JARED GREEN

Every quote is a conversation.

01 • PRICING

By quote, always

No list prices. Every configuration is quoted — unit, AtlasOS deployment, and support scoped together.

02 • THE PACKAGE

Robot + mind + care

Hardware by Mangobot, AtlasOS by Engage, monitoring and OTA updates in every contract. Sell the ecosystem, not the machine.

03 • THE PROOF

Demo days close deals

A robot in the customer's venue for a day beats any slide. Book the demo, bring the A2 Ultra.

Seven robots. One quote away.
